The following official report relating to affairs in Arkausas has been received at Grant's headquarters:

LITTLE ROCK, Aux., Dec. 26.—General Babcock and I arrived here two days ago. So many controlleror persons have been in circulation in regard to Governor Clayton's militia, that it may be well for you to know the facts. The present State government was certainly in some danger persons to the Presidential election. Sonator Barker had been shot and wonded bedly Mr. Uplam, of the lower House, and feed, and Lance, member fice, killed, and a U. S. Marshal driven from his post by threats.

The Governor, Senator Rice and others, had to sleep in the State-house under guard, for fear of assassination. The Governor wisely refraised from taking say violent measures until after the election, fearing that the opposition might make capital out of it. As soon as it was over he organized a militar force of about eight hundred men—one-fourit colorded—under denomic Catteron in the southwest of the country, taking what was absolutely necessary and giving voushers. His intention is to pay all loyal holders of vouchers and no others. Two assassins have already been excuted by sentence of the military commission and seven others are in prison, and a great number have been driven out of the State; but the best result is the disposition of all business men to vounkarily enroll themselves as posse pledged to assist the shorting out the west to my inparts of seven countries. The entire conservative wing of the Republican party were opposed to the decharation of martial law, including Gen. Smith, U. S. A., commanding the troops. They admitted the regin of terror established by the rebels, but wanted the United States to make the arrest.

Very respectfully, HORACE PORTER, A. D. C.

MONEY.

Money was in ample supply at 7 per cent. currency, although coin interest was occasionally paid. The drain to the South has nearly cessed, and one bank received a half million dollars from the West to-day. There is but a very moderate demand for money, as speculative movements are but moderate either in securities or merchandles. Government bonds continued to advance till late in the day, when large saies to release brought about a reaction. The decline was alight, however, and was quickly followed by a renewed strength, and actually closing at about 2 per cent. above the lowest point of Monday last. Border State and Southern bonds are also favorites with speculators for a rise. Railway shares, with a more settled money market, were again affected largely by various facts and rumors. New York Central very dull under the movements in the State Legislature. Cievcland and Pittsburg were carried up on reports of a large scrip dividend. There was also a good demand for Rock Island, but the close in this stock was foverish and unsottled under a report that new stock is to be issued, to take up bonds falling due next year.

It is reported that a semi-annual dividend of 4 per cent. will be made in Michigan Southern. The Northwestern shares were firm. Pacific Meil and Canton showed renewed speculative activity, but the activity in all was more apparent than real. It was mainly a brokers' market. The outside world operate very cautions.

New Mexico.

87. LOCIS, Jan. 7.—A Santa Fe dispatch of yesterday, says a correspondent of the New Mexican, from Fort Bayard, New Mexico, reports an affray between the white and colored troops, stationed at Central City, near Pinos Aitos, in which two white and three colored soldiers were killed and a large number wounded. The difficulty occurred at a ball given by the white troops. The negroes claimed the right to dance, which was refused, hence the difficulty.

After the fight the colored troops obtained re-enforcements from the fort and returned to the ball room, murdering a white soldier on the road. The President has issued his final procta nation of amnesty to those who participa ted in what is called the rebellion, and on attention to the victims who have been se ong suffering the worst horrors of impris-onment on the Dry Tortugas. We concur heartly in the suggestion, and we are glad to learn that there is reason to believe that he has the matter at this time under conexercise of justice from the first, but he had not, up to this time, had the nerve to do

right. Calumnies and denunciations will fall upon him now as harmlessly as tiny hailstones upon the roof of a house.

The release of the Dry Tortugas prison crs is the President's imperative duty, as every one who looks into the matter must see. The Supreme Court of the United States has decided directly and authorita-

tively that the Military Commission by which Dr. Mudd and others were convicted and sentenced to a desert island was an unconstitutional and unlawful tribunal that its assumption of jurisdiction in the case was a direct and absolute usurpation. Mr. Justice Miller, of the Supreme Court,

fact, that, in Mr. Washburne's opinion, the members of Congress have not acted as the servants of the people, but used their whole power for the benefit of themselves whole power for the benefit of themselves the continue their confinement is a property of the people where the property of the people where the property of the propert to continue their confinement is a pro-

He pays from \$ to 6 cents, and has bargained to give 6 years for 60 heard, weighing 200 pounds, to be delivered on the 18th last., by Mr. Burgess, of Fayette. He ships to Boston, Mass., whose denizons seem to have a partiality for provisions raised in the bright heart heart section.

Mr. Weshburge's comments upon the wisdom of what he said. And he was as judicious and wise in not discussing certain matters as he was in discussing others. His silence. son's message, we strongly commended

The immigration returns of 1808 and effecting the pacification of the country.

The Appropriation Committee Congress, a committee appointed to prevent needless and extravagant appropriations, is just now after the Indian Bureau with a sharr-tined pitchfork. The Bureau, it is said, claims to have 300,000 Indians under its charge, and it asks appropriations in propertion to that immense figure. The Committee doesn't believe that it has the sixth part of 300,000 in charge, and we are sixth part of 300,000 in charge, and we are very confident that it has not. These Bureaus are mostly swindling-machines worse, if possible, than the rings, and we should be glad to see them smashed. There appears to be a great variety of President Johnson's amnest preclama-tion. Some think that it effects certain things which others think that it does not. We should be glad to see an official, or, at least, semi-official exposition of its whole scope, meaning, significance, and potency. Why should not the Attorney General publish his views upon the matter for the instruction and enlightenment of the peoCITY ITEMS.

to August, which will doubtless be granted. It is estimated that for the completion of this most important enterprise to the coal region about \$500,000 will be required, and it can hardly be doubted that the requisite sum will in due time be forthcoming. Franklin county, it is thought, will make her subscription, next Monday, \$75,000 more than it now is, and this will increase the total subscriptions for the improvement of the navigation of the Kentucky river to \$650,000. Surely the remaining \$250,000 can be raised for a purpose in which so large a part of Kentucky is so vitally interested.

The Party with the Diamond Ring.
The Lafsytte correspondent of the New York
Times says: The masked fellow who commanded
the seventy Regulators at the time of the New
Albany murders, and on whose right forefinger a
valuable diamond ring was noticed by the Sheriff
and his deputies, is said to be a well known exofficer of one of the first Indians volunteer regiments that took the field in the early part of the
war, and to have conducted himself so shamefully
in the service as to necessitate his ignominious
dismissal from the army. Since the close of the
war this individual has led the life of a gambler
and checulier d'industries, and taken a leading
part in some of the lynching affairs by which
Southern indians has been diagraced for the past
three or four years. It is thought that he left the
State a few days after Anderson and the Reno
boys had been hung at New Albany.

Chicago the market is reported firm; mess pork, \$29 to 29 50. In New York mess pork and lard hold very firm.

Liverpool advices show an advance. The 1:20 dispatch quotes pork advanced \$25; bacon advanced 52; hard advanced 63; This market has selvom, if ever, been more excited. Packers and deelers are holding round lots out of the market, unless at extravagant prices, preferring to sell only to consimers in moderate amounts, having strong faith in a further advance. From present appearances it would seem that Europe will want all and more than the country can spare, to say nothing of the Southern demand. There must, however, be a point where this advance must be arrested, but no one seems able to say when it will be resched.

Ther is nothing unusual transpiring in flour or grain. A fair local demand is reported and the tone of advices is regarded favorable by dealers generally, although it seems as yet impossible to ostabilsh any advance. The grocery market is steady. We note a fair feeling in clover and timothy seed; sampling clover is firm and dealers are anxious to jourchase and would pay \$12 per bush. Speculators should take notice.
